

# Apple and Grape

## Ingredients

1 apple

12 grapes

Chocolate spread

8 chocolate chips

## Equipment

Knife

Plate

## Method

1. Cut the apple into 8 segments and remove any pips/stalk from the core.
2. To make the frog's mouth, use 2 slices of apple - one on top of the other, with the skin edge facing you. Stick the 2 slices together with a thin layer of chocolate spread.
3. Cut 3 grapes in half. Stick chocolate chips in the centre of 2 grape halves to create the eyes. These can then be stuck on top of the mouth using a small amount of chocolate spread.
4. To make 4 feet for the frog, arrange the half grapes on the plate around the mouth, skin side up. You could even cut little grooves in the grapes to make them look like webbed feet!
