

# Harmony Day

## Harmony Tree Craft Activity

*Use this craft activity when learning about cultural diversity.*

### What you need

- Hand template (provided in this resource)
- Coloured pencils
- Coloured paper
- Scissors

### Method

1. After a class discussion on cultural diversity, provide each student with a hand template.
2. Inform students that they will be using the hand template to write their name and represent their culture.
3. Allow students to cut out and decorate their hand.
4. Once the students have finished, encourage them to show their hand to the class and explain something special about themselves and their culture.
5. Use brown crepe paper or cardboard to create the trunk of a tree. Attach all the students' paper hands to the top of the trunk to form the leaves of a tree.
6. Use the Harmony Tree as a classroom display for Harmony Day.
