

Inspiring Lunch

On Tuesday 16th of June the senior students from rooms 14 and 15 attended the 2nd Annual Inspiring Lunch at the Warragul golf club. The goal of this lunch was for students to make connections with community leaders and business people. The students sat at different tables with a couple of community members on each table.

The first activity for the day involved the tables working as a team to build the tallest tower out of straws and sticky tape. The teams worked well together and the students showed their leadership and communication skills.

The Key note speaker for the event worked for the shire organising volunteers and talked about the benefits of volunteering, meeting people as well as learning work skills. She also talked about how life's journey can involve many different careers and experiences.

The community guest moved to another table and dinner was served. There were fish and chips, chicken parmigiana or chicken schnitzel depending on where you sat. Guests chatted away and the students answered questions about their hobbies and career goals. Guests rotated one more time and dessert was served.

The students had a great time and really enjoyed the opportunity to talk with these community members. The guests enjoyed themselves and were suitably impressed by the student's enthusiasm and confidence.

Hopefully this tradition will continue next year and also that further connections with the community will continue to be made.
