

Some places are open and some are closed.

        
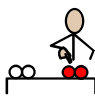

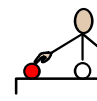

To keep us safe, some places are open. We are allowed to go

  
to places that are open.

        
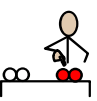

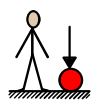

I can go to the shops, doctors and hospital. I can also go for walk.

          
People that work at shops, doctor clinics and hospitals can work.

        
I am allowed to go to these places with mum, dad or a carer.

         
These places are open so that we can get food and see a

  
doctor if we are sick.

          
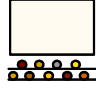

When I go to these places I need to stay with mum, dad or

a carer.

           
I need to keep my hands clean by keeping them with me.

     
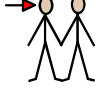

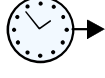

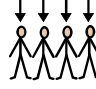

I can look at things with my eyes.

   
Some places are now closed.

      
The playground, park, pool, movies and school are closed.

       
The police will be in the community to make sure people do not

  
got to the closed places.

      
They will open again when it is safe for everyone.
